## New Health and Safety Guidance

The Health and Safety Executive (HSE) has updated its website on managing occupational health risks in the construction industry, providing new information for Construction Design and Management coordinators (CDMs).

The website gives information for CDMs, clients, designers, principal contractors and contractors on how to manage occupational health risks and meet the requirements of the Construction (Design and Management) Regulations 2007. See

<http://www.hse.gov.uk/construction/healthrisks/index.htm> and also

<http://www.hse.gov.uk/pubns/indg411.pdf>.

In addition, the HSE has issued a workplace transport checklist to help reduce risk from vehicles (<http://www.hse.gov.uk/workplacetransport/checklist/index.htm>) and a quick guide to managing the risks when using scaffolding (<http://www.hse.gov.uk/construction/scaffoldinginfo.htm>).
